¹ In July, 2004, the Commission adopted a *Report and Order* in this docket which reconfigured the 800 MHz band to eliminate interference to public safety communication systems operating in the band. *See* Improving Public Safety Communications in the 800 MHz Band, *Report and Order*, FCC 04-168 (rel. August 6, 2004). As part of the *Report and Order*, the Commission mandated that the logistics of the reconfiguration process be overseen by an independent third party, the Transition Administrator, who would be selected by a committee made up of representatives of five major stakeholders in the 800 MHz band. *See id.* at ¶¶ 190-200.
