**PUBLIC SAFETY AND HOMELAND SECURITY BUREAU EXTENDS
800 MHZ REBANDING NEGOTIATION PERIODS FOR
WAVE 4 BORDER AREA NPSPAC AND NON-NPSPAC LICENSEES ALONG THE U.S.-
MEXICO BORDER**

WT Docket No. 02-55

By this Public Notice, the Public Safety and Homeland Security Bureau (PSHSB) extends the mandatory negotiation periods for Wave 4 NPSPAC (Stage 2) and non-NPSPAC (Stage 1) licensees in the U.S.-Mexico border region until October 1, 2008, and postpones the beginning of the mediation period for such licensees until October 2, 2008.¹ As we have noted in prior public notices, rebanding of Wave 4 licensees in the U.S.-Mexico border region is affected by ongoing international discussions with Mexico.² Extending the negotiation period for these licensees will alleviate administrative burdens on licensees, avoid unnecessary rebanding expenditures, and provide additional time for resolution of border issues and issuance of frequency designations by the TA.

During the extended negotiation period, Wave 4 licensees in the U.S.-Mexico border region are not required to engage in planning or negotiation prior to the receipt of frequency designations from the TA, although we encourage them to engage in such activities to the extent that they are not frequency-dependent and would not result in unnecessary duplication of costs. If licensees choose to engage in such planning and negotiation activities, Sprint Nextel Corporation (Sprint) shall pay licensees' reasonable costs in accordance with the requirements of the Commission's orders in this proceeding.³

This extension also extends the filing freeze on new applications in the U.S.-Mexico border region until thirty working days after the October 1, 2008 date for completion of negotiations, *i.e.*, until November 12, 2008.⁴ However, the freeze does not apply to modification applications that do not change an 800 MHz frequency or expand an 800 MHz station's existing coverage area (*e.g.*, administrative updates), assignments/transfers, or renewal-only applications. In addition, Wave 4 licensees in the U.S. –

¹ For details regarding rebanding waves and negotiation periods, see the 800 MHz Transition Administrator's band reconfiguration schedule at www.800ta.org.

² Our prior public notices have also extended the negotiation periods for 800 MHz border area licensees along the U.S.-Canada border. However, the Bureau has recently adopted a revised band plan and rebanding timetable for the U.S. – Canada border region, which will henceforth govern the negotiation and mediation periods for 800 MHz licensees in the U.S. – Canada border region. *See* Improving Public Safety Communications in the 800 MHz Band, *Second Report and Order*, 23 FCC Rcd 7605 (PSHSB 2008).

⁴ *See* Wireless Telecommunications Bureau Outlines Application Freeze Process for Implementation of 800 MHz Band Reconfiguration, *Public Notice*, 20 FCC Rcd 8905 (WTB 2005).

Mexico border region may expand their facilities or add channels during the freeze, based on an appropriate showing of public interest need, using the Special Temporary Authorization (STA) procedures described in the Bureau's December 2006 *STA Guidance PN*.⁵ Facilities that are authorized under the STA procedures will be subject to rebanding, and Sprint will pay the cost of relocating such facilities to their new channel assignments.⁶

The extension of negotiations and the application freeze does not apply to Wave 4 licensees along the U.S.-Mexico border that have received replacement channels from the Transition Administrator. Such licensees remain subject to the previously announced negotiation and mediation schedules for this wave.

For further information, contact: Roberto Mussenden, Policy Division, Public Safety and Homeland Security Bureau, at (202) 418-1428 or Roberto.Mussenden@fcc.gov; John Evanoff, Policy Division, Public Safety and Homeland Security Bureau, at (202) 418-0848 or John.Evanoff@fcc.gov.

Action by the Associate Chief, Public Safety and Homeland Security Bureau.
