## 800 MHz Reconfiguration U.S. Virgin Islands Election Form for Relocation to the Guard Band

**Licensee Contact for this Request**

<b>Name:</b>	
<b>Title:</b>	
<b>Street Address:</b>	
<b>PO Box:</b>	
<b>City:</b>	
<b>State:</b>	
<b>ZIP Code:</b>	
<b>Telephone:</b>	
<b>Email Address:</b>	

I hereby request to relocate the channels for the call signs and locations listed above to the Guard Band. I acknowledge that relocating to the Guard Band would require me to tolerate higher levels of interference from cellular-architecture systems as a function of proximity of my new channel(s) to the ESMR Band (817-824/862-869 MHz) than if I relocated to the Interleaved Band (809-815/854-860 MHz). I also acknowledge that in the event licensee requests for Guard Band frequencies exceed the available spectrum capacity in any location requested, the TA may not be able to accommodate my request to move to the Guard Band.

Name (*print*): \_\_\_\_\_

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

**INSTRUCTIONS FOR COMPLETING THE U.S. VIRGIN ISLANDS ELECTION FORM FOR  
RELOCATION TO THE GUARD BAND**

U.S. Virgin Islands (USVI) licensees that want to relocate to the Guard Band (816.5-817/861.5-862 MHz) should complete and return this form to the 800 MHz Transition Administrator, LLC (TA) as soon as possible. Licensees that do not return this form to the TA will not be relocated to the Guard Band.

Relocation to the Guard Band may be conditioned on available spectrum and sound spectrum policy. Licensees requesting relocation to the Guard Band are not necessarily guaranteed that they will be relocated because licensee requests for Guard Band spectrum may exceed the available capacity. Licensees considering relocation to the Guard Band are advised that they will be required to tolerate higher levels of interference from cellular-architecture systems as a function of proximity of their new channel(s) to the ESMR Band (817-824/862-869 MHz) than if they relocated to the Interleaved Band (809-815/854-860 MHz). In order to learn more about interference protection in the Guard Band, licensees should review paragraph 158 of the 800 MHz Report and Order (available at [http://hraunfoss.fcc.gov/edocs\\_public/attachmatch/FCC-04-168A1.pdf](http://hraunfoss.fcc.gov/edocs_public/attachmatch/FCC-04-168A1.pdf)).

1. Licensee Name: Please provide the name of your organization. This should be the licensee of record with the FCC. Please explain in the Comments field if this organization is not the licensee of the call signs included in this request or if the request involves multiple licensee entities, etc.
2. Call Signs: Please list all 800 MHz call signs to be included in the Guard Band election.
3. Locations and Frequencies: For each call sign, please list by location numbers from your FCC license all current frequencies operating in the ESMR Band (817-824/862-869 MHz) that are included in the Guard Band election. If your request covers all locations and all frequencies operating in the ESMR Band, please enter "ALL." If it is all locations and only certain frequencies in the ESMR Band, enter "All locations" and list the frequencies individually.
4. Comments: Please provide any related comments. Note that this step is optional.
5. Contact Information: Please provide complete contact information for the main point of contact for your organization. Please ensure that this contact information matches information provided in your Point of Contact Form if you have submitted one to the TA.
6. Signature and Submission: Please sign and date the form. The form must be signed by the licensee, if an individual, or, if an organization, by a person with authority to sign on behalf of the licensee. You must submit the completed form to the TA:

Via email: [elections@800TA.org](mailto:elections@800TA.org)

Via fax: (866) 432-8317; or

Via mail: 800 MHz Transition Administrator, LLC  
c/o Steve Lederman  
Squire-Sanders (US) LLP  
1200 19th Street, Suite 300  
Washington, DC 20036

Parties should also file a copy of their election with the FCC in WT Docket No. 02-55.

Questions should be directed to the TA at [elections@800TA.org](mailto:elections@800TA.org). Additional information regarding the 800 MHz band reconfiguration process can be found at [www.800TA.org](http://www.800TA.org).
